Date: - 4<sup>th</sup> February 2019

**To our Most Valuable Customers:**

INFORMATION ABOUT TRANSITION FOR EnMS FROM ISO 50001:2011 TO ISO 50001:2018

This letter is a part of our ongoing commitment to keep you informed of changes that could affect your Energy Management System (ENMS) certification. These changes will affect you if you currently have or are working towards related TÜV SÜD management system certification.

As per the policies of ISO 50003 and NABCB, we must ensure that all certified companies / clients get upgraded to new standard within the mandatory transition period of **3 years**. This demands to have the transition plan of certification body related to existing certificates and upgrade to new applicable standards for each certificate issued.

We kindly request you to note the below –

- Few recently released certificates (based on for EnMS 50001:2011) may have validity beyond **2021-08-31**. With the transition policy, all such certificates now are VALID until **2021-08-31**. Any certifications to EnMS 50001:2011 will be automatically terminated at the end of the transition period **by 2021-08-31**. To restore the certification after **2021-08-31** as per ISO 50001: 2018, client must undergo stage1 & stage 2 audit.
- TÜV SUD shall conduct transition audit during routine surveillance, recertification or a special audit. This routine transition audits will be a single visit audit.
- Where transition audits will be carried out in conjunction with scheduled surveillance or recertification then 1 man-day will be applied in addition to routine man-day calculation to cover existing and new requirement implied by ISO 50001: 2018
- For all currently certified and new clients – Audits (certification, repeat & surveillance) against old standard may be conducted only **until 2020-08-31**.
- From **2020-09-01**, all audits (currently certified and new clients) shall only be against the new Standard ISO 50001:2018.

We hereby request you to get in touch with our local branch and understand the process in detail

Thank you for your attention and supporting in Transition.
